## **Non-Members Present**

Colin Kuebler

---

Mike opens the meeting, introducing the officers as the projector is set up to screen the NRB production. Everyone introduces herself or himself as we wait, and Mike welcomes everyone to the club.

On September 12<sup>th</sup>, we will be shooting a football game at ECAV, which is the new sports stadium on campus. Football season will continue from there, with various games throughout the month, and hockey season starts thereafter.

Both Football and Hockey games are broadcasted live online. We also regularly shoot "Wednesday Night Live" at WRPI, with a new live band each week. In addition to these regularly scheduled shoots, we produce news segments based on current events. We also shoot numerous club and cultural events, about 15 or so each year. Creative productions are also always on our mind, as we have the tools and technical ability to produce just about anything, so if anyone would like to propose any ideas feel free to let us know.

Scott presents the Operations Committee report: The Operations Committee is responsible for many operations of the club, like equipment training. This Saturday, we will be conducting an equipment training session during which we will demonstrate to new members how to use the cameras, ect. After this session, we will have an optional advanced training session for people who would like to learn how to use our video switcher or audio mixer. Food will be provided on Saturday.

We also have a new equipment policy, which defines the rules on using equipment, and training processes and standards. We will be presenting this equipment policy at a business meeting soon, so members can vote on it.

From Brian the Station Manager: We film the senate meeting every week, which is a really interesting event during which you can learn much about student government. Senate meetings, Wednesday Night Live, and other productions such as our newest NRB production entitled "MURSE", are all available online for viewing.

Kyle talks about how RPI TV is a Union-funded club, and how we have lots of money to spend each year. He also mentions that he is the "EMPAC bitch", and has frequently helped RPI TV collaborate with EMPAC.

Andrew mentions that we also have some "DIY" pieces of equipment, such as the tally light system that he has designed.

Reilly, our Public Relations Manager, discusses the ads that are circulating on Concerto, as well as Wednesday Night Live which will be starting in two weeks.

Someone would like to know when the NRB production will be aired on Channel 6, and Mike tells him that there will be an email sent out to notify members of the air time.

Someone asks if there will be some sort of training for actors, or on-screen people. We really have never had a formal system for that sort of thing, but we are open to try new things, and work with different organizations on campus that may specialize in those areas.

Someone else asks if members can be involved in *all* productions (sports, creative, ect). Members can help with as many productions as they would like to. In the past, we have had productions with too many people working on them, as well as productions with only two people working, when there could have been much more.

"MURSE" is screened for the members of the club, and brings much laughter.
